

## New Music Submissions featuring Diana Rein !!

**New Music Submissions on Trike's Trax features Diana Rein "The Six-String Siren," guitarist and her highly-anticipated album "Long Road", being released Wednesday, May 18. The album was written, recorded and produced by Diana Rein, and contains twelve original tracks. Rein not only sings and plays lead guitar, but also bass, and rhythm guitar. "Long Road" was mixed and mastered by Peter Duff at Grey Brick Studios in San Diego, CA. On Long Road, Diana Rein, who was born in Romania and raised in Chicago, doesn't just show off her incredible guitar playing, which is reminiscent of Stevie Ray Vaughan with a sprinkling of Buddy Guy & Jimi Hendrix, but also her powerful voice !! This is quite evident on the opening & title track "Long Road", an emotional song about forgiveness and starting over. Other Trike's Trax picks are : "Wild One", a kick right in the face with a killer bass line and lead guitar riffs that may leave marks, "Livin Loud", the James Dean inspired "Rebel With A Cause", "Come Back Home" & "Down Down Down" !! Killer Vocals, Killer Guitar, Killer Rock !! With music like this, Diana's Rein as "Queen of Blues/Rock" will be a long one !! This album is all about big attitude from a little lady who says "I love to play the blues till dawn, my main man is Stevie Ray Vaughan". "Long Road" drops tomorrow and you can grab your copy at any of the links listed below !!Highly recommended.**
